

## How to Run a Windows Update

Open the “Start” menu of your PC. Point to “All Programs,” then click on the button that says, “Windows Update.” The Microsoft Windows Update home page will open. Click “Express,” and the program will find relevant updates for your computer. Click “Download and Install Now.” The updates will be downloaded to and installed on your computer. Some updates may require a restart. If you encounter any problems, please contact the Help Desk at x.6881 or [helpdesk@ehc.edu](mailto:helpdesk@ehc.edu).
